

Active Pharmaceutical Ingredients Directory 2021

Find an exhaustive listing of reliable manufacturers, exporters and suppliers of Active Pharmaceutical Ingredients worldwide.

According to industry experts, worldwide **active pharmaceutical ingredient (API) market** valuation is projected to reach USD 306.1 billion by the year 2027. Upsurge in occurrences of chronic ailments like CVDs, arthritis, and diabetes, along with growing prevalence of infectious diseases such as influenza, hepatitis, and especially coronavirus are bolstering the demand for drugs and medications globally. In addition, booming geriatric population who have a higher susceptibility to such health conditions is adding considerable traction to global active pharmaceutical ingredient (API) market growth.

Active pharmaceutical ingredient market report also incorporates detailed segmentation studies on the product terrain, form type, manufacturer scope, and geographical landscape to uncover the top revenue prospects. Furthermore, it boasts of a top-to-bottom analysis of competitive hierarchy of this industry vertical. In addition, the research literature has been revised to address the impact of Covid-19 on business development.

APIs are regulated by some of the most rigorous and stringent legislation ever passed. Compliance with these strictures and with best industrial, clinical and manufacturing practices is an absolute necessity for any actor in the pharmaceutical products supply chain. Quality assurance, clinical trials and in-use assessment are all key parameters for the various stakeholders to review.

Published annually and updated quarterly, the Active Pharmaceutical Ingredients Directory contains corporate information, senior executives, contact details email addresses of those working in every segment of the API marketplace, and includes important information on manufacturers, distributors and agencies. As an invaluable resource our Directory is filled with thousands of pages of data.
